

## **Differential pressure**

from 0 ... 1.6 mbar up to 0 ... 1000 mbar

## **Output signals**

3-wire: 0 ... 10 V, 0 ... 20 mA (0 ... 5 V, 4 ... 20 mA switchable) 2-wire: 4 ... 20 mA (optional)

## **Special characteristics**

- adjustable ranges
- ▶ high overpressure capability
- adjustable damping
- compact form
- LC-display, two-line

#### **Optional versions**

- automatic zero adjustment
- contacts (only in combination with display)
- square root extraction (only in combination with display)

# **DPS 300**

Multi Range Differential Pressure Transmitter for Gas and Compressed Air

Silicon Sensor

accuracy according to EN IEC 62828-2: 0.5 % span BFSL

The pressure transmitter DPS 300 was developed for the differential pressure measuring for dry, nonaggressive gases and compressed air and can be used for several HVAC applications

The DPS 300 is a multi-range transmitter with up to three adjustable ranges.

The device is equipped with a two-line LC display optionally and can be simply parameterized. Values, status of the contact and the unit are shown on the display.

## Preferred applications are

medical

#### Preferred areas of use are

gas, compressed air

BD SENSORS s.r.o. Hradišťská 817 CZ – 687 08 Buchlovice
